Truck and container door seal sections: 16 standard sizes

Truck and container door seals come in 16 standard sections in three families: twin-lip U-base (6 sizes), multi-fin wide base (6) and J / hook type (4). Each is EPDM sealing lips on a PVC base. Measure the base outer and inner width and the overall and side height of your old seal and match the closest section.

Ref.	Family	Base outer / inner	Height overall / side
T-01	Twin-lip U-base	25/20	41/28
T-02	Twin-lip U-base	33/25	45/33
T-03	Twin-lip U-base	36/30	51/36
T-04	Twin-lip U-base	42/35	42/32
T-05	Twin-lip U-base	47/40	53/37
T-06	Twin-lip U-base	57/50	50/36
T-07	Multi-fin wide base	61.5/50	45/35
T-08	Multi-fin wide base	80/70	45/31
T-09	Multi-fin wide base	86/75	47/35
T-10	Multi-fin wide base	90/80	47/32
T-11	Multi-fin wide base	110/100	40/30
T-12	Multi-fin wide base	90/80	42/32
T-13	J / hook type	24/20	30/20
T-14	J / hook type	29/25	39/16
T-15	J / hook type	36/30	46/15
T-16	J / hook type	39/35	44/19

All sizes in mm. Base = outer / inner width of the mounting base; height = overall / side height. Ref. numbers are for quoting on this chart only.

Ordering

No minimum – orders from 10 m · Sampling 7–10 days · Stock items ship within 7 days · Packing: 100 m or 150 m per roll, usually 4 rolls per carton; custom packing on request · Terms: FOB, CIF, EXW, DDP

Quote: send the model or section, length and colour to dora@onaseal.com or WhatsApp +86 159 2054 4735. Online chart: https://www.onasealrubber.com/profile-library/truck-container-door-sections/

Facts last reviewed 2026-11-02. Sizes are nominal; confirm the section with a sample before mass production.
